TOP COAT EFFECT GLOSSING SERVICE

The **BBColor Beauty GLOSS 3D** formula, enriched with Luminescine, Trimethylglycine and Conditioning Polymers, boosts the brightness of the color, lifting it to give it extra shine, with a *top coat* effect for a perfect result.

BRIGHT COLOR: LUMINESCINE EXTRA-POWER

Luminescine significantly increases the hair's luminosity, offering a cosmetic colour characterised by exceptional shine. Extract of Mullein captures and reflects the light for an extraordinary result filled with natural light. There is a HIGH CONCENTRATION of Luminescine in BBColor Beauty GLOSS 3D to enhance the shine performance.

PROTECTIVE HYDRATION: TRIMETHYLGLYCINE

Trimethylglycine hydrates the hair deep down, protecting it during coloring. Extracted from sugar beet, it acts as an osmoprotectant, preserving the scalp and hair in stressful conditions.

MAXIMUM SOFTNESS: CONDITIONING POLYMERS

A highly substantive cationic conditioner and a silicone derivative restore noticeable softness to hair, enhancing the shine. They make hair much easier to comb.

NEW LIGHT FOR COLOR

Introducing **BBColor Beauty GLOSS 3D**, the illuminating fluid for ultra-light toning. When mixed with BBColor Beauty shades, it allow you to create:

- **precision** toning with maximum respect for the tone level on light/ultra-light and fine hair.
- **safe** toning, without the risk of unwanted reflections on cool ultra-light blonde hair.
- **luminous** toning, with delicate, soft and velvety reflections.

1 PREPARATION

Prepare the mixture in a bowl or a non-metallic shaker:

1. thoroughly mix BBColor Beauty Coloring Cream and BBColor GLOSS 3D until you obtain a perfectly smooth mixture,
2. add BBColor Activator 6 Vol., mix thoroughly and then, apply.

2 APPLICATION

Apply the mixture evenly on pre-washed and towel-dried hair.

3 PROCESSING TIME

5 - 20 minutes

4 RINSE

After the application time has finished, rinse well and thoroughly under warm water and wash the hair with a post-color shampoo. pply **BBColor Pigma Nourishing GLOSS Mask** on towel-dried hair to the lengths using a comb for even distribution, leave in for a few seconds, then rinse under warm water.

FAQ

- **How does BBColor Beauty Gloss 3D work?**

BBColor Beauty Gloss 3D is a fluid with an acidic pH designed for mixing with BBColor Beauty Tone-on-Tone Coloring to create ultra-light tones, with maximum respect for the tone level, even with very light natural bases and fine hair.

- **Does BBColor Beauty Gloss 3D affect the expected color result?**

BBColor Beauty Gloss 3D softens the intensity of the BBColor Beauty shade whilst maintaining the consistency of the reflection, which will be 'softer'.

- **Can BBColor Beauty Gloss 3D be used with all the shades in the BBColor Beauty range?**

Yes, BBColor Beauty Gloss 3D can be used with all the shades in the BBColor Beauty range. It guarantees 'safe' toning with greater control over and elimination of unwanted reflections. It is ideal for creating perfect, bright blondes both with a dominant warm or cool tone. It illuminates toning with the 'cool' shades of the BBColor Beauty range.

- **What is the gloss effect?**

BBColor Beauty Gloss 3D allows you to create tones with extra radiance and body. It acts like a conditioning BOOSTER and enhances the treatment power of BBColor Beauty Tone-on-Tone Coloring.

- **Does BBColor Beauty Gloss 3D affect the hold of the reflection?**

No, the hold of the reflection obtained with BBColor Beauty Gloss 3D is comparable to the hold of the reflection obtained with the standard application.
